To Whom It May Concern

Fairlane Agencies: A partner in Human Learning and Development

The above company is well known to us in the learning space. We started a working relationship with it in May 2016 until the present day where we are busy implementing a fourth AET learning project.

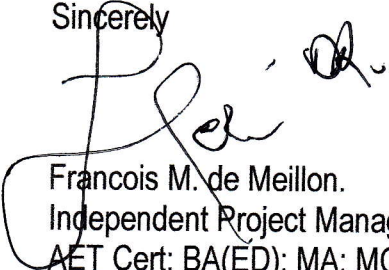

The owners and decision-makers of Fairlane are forward thinking individuals with a vision to empower their staff over a protracted period of time towards qualifications that will match their personal daily work. They invest their time, money and resources into workers whilst having a hands-on approach towards personal assistance and advice.

The examination results of Fairlane over 3.5 years speaks for itself with a nearly 100% pass rate in external examinations that were written. Media Works as a provider of adult learning will attempt to assist them for as long as is possible with products that are suitable to their needs and progress.

It is a joy to work with this company as it work towards realising the romance of the fruit of successful learning. Long may it be and last.

Literacy Greetings

Sincerely

Francois M. de Meillon.
