Re: **Fairlane Agency**

At Sunshine we've always had great service from the Representatives & Merchandisers of Fairlane Agency.

They always have the best interest of their principals' brands & customers, at heart. They are very attentive to our needs & always try to accommodate our requests as best as they can.

They provide a great link between us & their principals, ensuring that all communication is passed on & requests are followed up.

We would highly recommend them & put their name forward for any prospective principal that is looking for an Agency that is professional, hard working, honest, reliable & has a great team of people.
